

Reach New Heights With This Luxurious Cross Country Tourer

The Summit Series II offers luxurious touring comforts and an impressive list of standard inclusions allowing you explore in style. At the core is the renowned Colorado build quality and tough timber frame construction, paired with sleek external styling and fresh, pleasant interiors of superior quality. Utilizing the ever dependable Preston Chassis with shock absorbers and higher ground clearance, touring the wide open road with the Summit Series II on tow, is sure to prove a satisfying and carefree experience.

Select from an extensive variety of floor plans including cafe and L-Shape options. With a broad range of cabin lengths from 17' to 23', we're sure to have a solution to suit your lifestyle and touring preferences. Make the Summit Series II your home with a diverse choice of wall, floor, bench top and upholstery colours and textures.
